

CLOTHES HANGER "SKELETON"

Materials needed:

- Clothes hanger - 10 per skeleton
- Tape
- White paper

To assemble:

Bend top hanger into shape of skull. Cut this same shape from paper and draw skull features. Set aside.

To make rest of skeleton attach the hangers to each other with tape. (Bend hanger top around will also work.) To make four ribs, fasten hooks of the hangers to the center of the hanger above it. For arms, legs and feet, straighten 6 hangers. Make these by stretching hangers as shown. For arms, fasten one of these hangers to top rib at each side of hanger corners. The hooks serve as hands. For each leg, attach 2 straightened hangers together lengthwise. Fasten these to the bottom rib, 4" from hanger corners. Feet are formed by bending lower legs in half at right angles. Cut large paper feet and hands. Attach these and skull in place on the Skeleton. Use the hook at the top of the Skull for hanging your spook.
